Tom Pepper, of the Ryan Brothers' ranch, whose eyes were hurt on the Fourth, is at the Norton house. He is suffering very much, and fears are entertained that the vision may be permanently injured.

Ernest Hitchcock, whose death was announced yesterday, was buried at the cemetery last evening. The Rev. J. G. Pritchard performed the funeral service, and a number of friends accompanied the body to its last resting place. The relatives of the deceased were telegraphed to when it seemed probable that his sickness would prove fatal, and a brother was ready to leave Youngstown for this place, but was prevented by the news of his brother's death.

George W. Lincoln has leased the Jay Bird mine in the Black Hills district to H. M. Merriweather.

Jake Friedman, a miner in the employ of the Copper Queen company, was sent to the hospital today suffering from a severe attack of appendicitis.

S. P. Johnson, the mining engineer at La Cananea, came into town last evening. He reports great progress in development work in that thriving district.

The United Verde company has in contemplation the erection of a large cyanide plant to handle certain ores which do not yield readily to the smelting process.

Mr. Walter Douglas returned yesterday evening from a hurried trip to Morenci, where he found the damage done by the recent fire fully as extensive as at first reported.

The handsome sign in front of Geo. Tate's saloon is the handiwork of Mr. Pitroff, the painter. It is a picture of a fish within a pond, and is altogether a fine piece of work. The saloon will be hereafter known as the "Fish Pond."

Several new cottages are going up in Upper Tombstone canyon, and others just completed are being painted and the grounds graded off so that this section of Bisbee is fast becoming the most desirable resident portion of the town.

## CANANEAS CELEBRATED.

## A Large Number Enjoyed the Festive Occasion.

La Cananeas celebrated the Fourth in great form. There was a large barbecue which included, besides the usual beef and mutton, several deer. Two hogs were among the delicacies on the fire. Nearly four hundred people were fed. Horse races, sack races, and ladies' and gentlemen's races were on the programme and the prizes were hotly competed for. A large number of visitors from the towns in the locality were present and the senioritas were there from San Pedro to Arispe. There was a grand and most successful dance in the evening. The committee were nearly worked to death but are to be congratulated on the success of their efforts.

## THE NEW HOTEL.

## Work is Commenced in Earnest on the Ground.

The contractors in charge of the new hotel are working in earnest on the grounds. Four teams are at work hauling dirt which is dumped on cars and taken out of town. Before many months Bisbee will boast of one of the most handsome hotels in the territory.

## THE EASTER SUNDAY.

## Improvements Are Being Effected on This Mine.

The air shaft of the Easter Sunday mine is rapidly nearing completion. After which development work will begin in earnest. It is reported that indications are very favorable, and before long the Easter Sunday will be among the big dividend payers of this locality.

## The Red Men.

The local lodge of Improved Order of Red Men met last night. There was a large attendance. The following officers were duly installed in the positions assigned them: Prophet, James Farley; Sachem, J. A. Campbell; Senior Sagamore, Ed. Scott; Junior Sagamore, Clint Keller; Chief of Records, John Munch; Collector of Wampum, W. D. Kinsey; Keeper of Wampum, Dr. Edmundson. The finances of the Tribe were found to be in a flourishing condition. A large amount of money has been paid out during the past year in assisting members who were sick or in need, and the expenses had been unusually large. The membership has greatly increased and the order is very popular in this locality. A vote of thanks was extended to the retiring officers for their services.

It is understood that the Val Verde Company will put up a pyritic smelter in the near future. An electric light plant will also be installed to light the works and company buildings. Prospect.

Superintendent Blauvelt, of the Cash mine, has struck a large body of water in the lower levels. He estimates that it is sufficient to run a 40-stamp mill and will order a pump immediately to handle the flow. Prospect.

Harrington and Borr, who have the old Grey Eagle and the Tiger mines in the Bradshaw mountains under lease and bond, have made a strike in both properties. In the Tiger they have encountered a large body of ore which samples \$35 per ton gold, and in the Grey Eagle a winze sunk from the lowest level has disclosed a body of ore three feet in width sampling \$90 per ton in gold. These properties were once great producers and under the present management show promise of taking their former rank in Yavapai's gold producers. Prospect.

WANTED—A position as housekeeper by a competent lady. Call at the Norton House, room 5.

## SILVER REPUBLICANS.

## Are Engaged on Platform and Nominations.

KANSAS CITY, July 5.—The silver republican national convention spent all of today in waiting for the report of the committee on resolutions. It was not until late this afternoon that the formal enunciation of the party's principles was in readiness to be presented to the full committee. The plank denouncing imperialism was finally adopted and in this shape the platform will be presented to the convention tomorrow. It is planned to nominate both Bryan and Towne by acclamation.

## HEAT IN CHICAGO

## Prostrations From the Heat Are Numerous.

CHICAGO, July 6.—Heat beyond endurance continued to oppress Chicago yesterday, and before the day was ended seven deaths and sixteen prostrations were reported. Andrew Cushman was overcome by heat at Hall's works, also Wm. Keen, 79 years of age; John Leach died; Frank Ponitanski, was prostrated at the packing house of Nelson, Morris & Co. Ludwig Ribon, infant, John S. Ova, prisoner at county jail, and Dr. Robinson Tripp, 43 years old.

The water question in Bisbee is becoming one of grave importance. The wells in the west end of town that have never been known to fail, are now beginning to show a very perceptible shrinkage in the supply, and it is only in the early morning that good water is to be had. If the dry weather continues in its severity a great while longer the water supply in this section will surely be exhausted. And then what?

Messrs. Baxter and Jones, Bisbee's crackerjack team of drillers, who went down to Tucson to compete in the drilling contest on the Fourth, were passengers on the incoming train this afternoon.
